Panorama of arts

It's a celebration of colours and canvases at the ongoing Art Bengaluru festival at UB City. The premier festival of arts is in its fourth edition now, and the inaugural event that was held last Friday was one scintillating affair. The highlight of the evening was the unveiling of the festival's centre piece installation created by Thota Tharrani. The honours went to Subroto Bagchi, who was the chief guest for the evening. Well-attended by the society crowd, the evening also featured Body Art Dancers who showed us that for art, the canvas is everywhere.
